

VerdeCares, located in the Verdes, is dedicated to enhancing the quality of life and promoting the health and well-being of our residents. We provide our neighbors access to “No Charge” services, education, and activities that promote physical, mental and emotional health. We serve the homebound, those that live alone with special needs, families living with devastating diseases and provide hands on support from hospital to home self-sufficiency.

We work closely with the Rio Verde Fire District in helping our neighbors in need. We are proud of our role in emergency preparedness for the Verde Communities.

Vicki Beseke
Executive Director

Fire District Chief Jay Ducote says,

“We see VerdeCares as a partner in fulfillment of our plan to provide emergency support to our communities. They provide the services that help residents transition from the hospital to home self-sufficiency and this reduces return hospital ambulance trips. VerdeCares proactively helps residents with medical equipment and other resources helping to minimize repetitive calls for assistance. Additionally, VerdeCares, as a member of our Rio Verde Emergency Preparedness Plan, provides strategic volunteer services to support our Fire District in an emergency. We see VerdeCares as an integral part of our plan to carry out disaster recovery operations, especially in identifying and attending to individuals requiring emergency assistance.”
